In view of

The need to determine the amounts of the compensation and minimum fees for the use and reproduction of the assets under concession

This regulation determines

The terms for the concessions concerning the use and reproduction of the assets belonging to the Historical Museum and Park of the Miramare Castle and the adoption of the following fee schedule fixing the related fees and compensations.

PART I

GENERAL CONDITIONS

- Without prejudice to comprehensive protection requirements which concern the cultural assets under the responsibility of the Historical Museum and Park of the Miramare Castle, as well as the rights the respective authors and creators are entitled to, the right to use the state-owned property and the reproduction and use of the assets shall be granted through an official ‘concession of use’ document and/or a specific authorization. The Historical Museum and Park of the Miramare Castle administers all the stages of the concession of the premises.

- The reproduction and use of the cultural assets are subject to the payment of the fees and compensations determined by the management of the institution responsible for the assets, which are fixed in this fee schedule.
- Any initiative falling under the institutional purpose of the Administration is not subject to any fees. Products for which a specific ministerial agreement was entered into are exempt from payments. No fees are due for footage made without stands or tripods (in outdoors areas accessible to the public) by individuals strictly for their personal use or for study or scientific research purposes, as well as by public entities for promotion purposes expressly acknowledged by the Administration. However, the applicants are required to reimburse any expenses the concession provider may incur. In addition, the above is without prejudice to the right of the public to be informed through media coverage.
- The concession is non-transferable, and is issued non-exclusively on a one-time basis, following a check on the compliance with all the requirements specified and subject to the advance payment of the fees and compensations under this fee schedule, which do not include any compensations and copyright royalties due to the creators/authors or third parties. Where required, a security deposit shall be paid as established by the management of the institution.
- Any expenses relating to extraordinary work and/or tasks carried out on behalf of third parties by the personnel involved in the performance of the initiative shall be charged to the concession holder. Such amount, also including the time required for the preparation and the removal as well as any night or holiday surcharge, shall be calculated considering the instructions from the management as well as the type of the event, its duration and the premises involved, with a quotation to be annexed to the authorization letter. The payment of the amounts above shall be made before the event by bank transfer to the revenue account in the name of the Ministry of Cultural Heritage and Activities as per Chapter XXIX – paragraph 2584 article 21, quoting the description of payment as specified by the Department

for Agreements and Concessions of Use. A copy of such transfer shall have to be submitted to the management of the institution and shall be binding for the granting of the concession.

- Any applications submitted which may refer to cases not expressly covered by this fee schedule shall be examined separately and then subject to specific agreements to be reached from time to time. So far as is compatible with the performance of the tasks of this institution, quotations will be provided on request, with a specification of the validity term and the payment methods. Interested parties shall be required to reimburse any expenses incurred by the Administration, to be established in the quotation.

- Only insurance coverage provided under the following conditions will be taken into consideration:

 - the policy must be proposed by an intermediary registered with IVASS in one of the sections of the RUI (Single Intermediaries Register), who shall produce the relevant certificate.
- The policy, to be written in the Italian language, shall be submitted with a receipt of payment and in sufficient time before the event.

- The insurance contract shall be governed by the Italian legislation; the Court of Trieste shall have exclusive jurisdiction to settle any dispute that may arise under this Regulation or in relation to it.

- Should they be carried out during the opening hours of the Museum, any operations relating to preparation and removal work shall not imply limitations to the regular availability of the areas open to the public.
- The conditions set forth herein also apply to the concessions of use relating to assets for which the payment of a fee is not required, as well as to concessions of use relating to short-term events. On the other hand, this shall not apply to events taking place within a property the Ministry is responsible for which are promoted by the Administration in collaboration with any other partners.
- The concession holder is required to pay the entrance ticket to the requested premises, unless otherwise specified and authorized.
- The concession holder is required to guarantee the cleanliness and restoration of the original conditions of the premises at the end of the event.

No charge can be imposed on the Institution for the realization of an event within the premises granted for use.

The amount of such deposit shall be established on the basis of a quotation and according to the quantity of artists involved, the equipment and spaces used, and shall not be less than twice the established fee. The deposit shall be returned after ascertaining that the assets under concession have not been damaged and any expenses incurred by the Administration have been reimbursed.
- The Historical Museum and Park of the Miramare Castle shall be held harmless from any liability for damage to any property or persons caused, arising out of or in any case consequent to the activities carried out by the concession holders relating to a reproduction or presentation to the public not compliant with regulations.
- Any photographs taken and footage filmed during the event may only be used by the concession holder, in particular for internal documentation purposes and/or for strictly personal purposes. No publication or other use whatsoever shall be permitted without the prior authorization of the Director. - It shall also be necessary to obtain an authorization of public performance license from the Administrative Police, pursuant to article 68 of the TULPS and any subsequent amendments and additions. The authorization must be delivered the Directorate of the Museum in a timely manner.
- Any failure to settle previous concessions prevents the issuing of any authorization for new events.
- Upon signing the concession deed, the concession holder undertakes to preliminarily fulfil any legal obligations referable to the regulations of S.I.A.E. (Italian Royalties Collection Society) on copyright with reference to the organization of the event/activity for which the premises are granted.
